- Church Modernization
- Computer setup and configuration
- Network Configuration
- Printer setup, troubleshooting, configuration
- Mobile Device troubleshooting
- Live Sound setup, mixing, training
- I.T./Network Consulting
- Live Streaming setup/training/consulting

Pricing:

NPO and HoW pricing is dependent upon the organization, as each organization has different needs. Pricing for NPO's and HoW's will always be less than the \$75/hr business rate, but will vary according to the needs of the organization. An organization needing support for a large staff and complex equipment will be done at a higher rate than an organization that just needs a backup solution setup and regularly maintained or one that just wants an on-call I.T person in case of emergencies.

The preferred method of billing for NPO's and HoW's is by retainer packages. These are done in 10hr increments, up to 40hrs/mo, for monthly service. In order to give package and pricing options, I will have to come to the organization and discuss needs and see the organization's facility and equipment to better know how to help meet the organization's needs.

Project Rates are also available for NPO's and HoW's. These rates are quoted upon request, after evaluation of each project. This type of rate is intended for short-term, as needed services.

Hourly billing can be done for NPO's and HoW's. Hourly rates are less than the \$75/hr business rate, and will be discussed with the organization.
